Flexible features

Spindle Document Distribution gives you the tools to improve your business efficiency and help make your working day that little bit easier. You could reduce the time you spend processing paperwork by 20%, saving you a day a week.

Batch document distribution

Sends all your documents in batches or individually to exactly where they need to go by email, print, fax or to archive.

Branded document templates

You can easily add different templates for your documents with full colour backdrops and incorporating your full branding. You can add promotional messages which can be tailored specifically to different customer groups.

Spindle Document Distribution is ideal if you work with different types of customers, across different countries or brands. It has the ability to automatically switch templates, language files and different attachments to suit requirements.

Send any type of business communication

Attach and send any document type, such as invoices, statements, remittance advices, quotations, sales orders and so on to any contact, internally or externally, from any business application.

Archive for future retrieval

When documents are distributed, they are automatically archived and can be viewed using the Document Search Tool by searching with the document number, transaction type, date and more.

Distribute to multiple contacts

If you need to send the same document to more than one recipient, additional recipients can be copied into emails or the same document can be attached to a separate email with a tailored message.

Protect documents

Digitally sign your PDF documents to verify your identity and ensure the integrity of the document using advanced Adobe CDS Digital ID. You can also password protect sensitive documents such as pay slips and other confidential information.

Spindle PayThem™

Add 'Pay Now' buttons to invoices sent via email and get paid quicker. Your customers can instantly and securely pay you online via Sage Pay.

Personalise correspondence

With real-time data extracted from your accounting system, you can ensure that documents contain the right information such as contact name, address, email address, account details and payment information. You can also personalise your email message and printed communications.

Add extra attachments

Include additional documents with your electronic correspondence such as related invoices with statements, delivery instructions, terms and conditions of purchase, promotional offers, newsletters etc.

Flexibility for every department

Credit Control

Fed up with requests for invoice copies?

Spindle Document Distribution can automatically attach multiple invoices to every monthly statement emailed to your customers. So you and your customers instantly have all the information you need to hand when you are querying reasons for late payment.

Accounts

Wasting your time stuffing envelopes?

Email invoices and other types of documents in seconds. Spindle Document Distribution will automatically email batches of documents or print out ready for posting, depending on individual customer preference settings.

Sales

Keep on top of your accounts!

Receive copies of overdue statements or invoices in real-time. Not only will this reduce internal queries - it will help you assess any disputes or overdue payments too.

Warehouse

Want to achieve faster despatch?

No need to collate multiple documents. Spindle Document Distribution simplifies the order picking process by adding all orders to one picking list. Barcodes are automatically generated and inserted on the document.

"Implementing Spindle Document Distribution has helped us to streamline processes, save money and improve our service to our customers - we wouldn't be without it."
